DODGE CITY MIDDLE SCHOOL
INFORMATION TECHNOLOGY STUDENT SUPPORT TEAM
Parent Consent to Participate in Weebly Website Building

Parents,

This year, your son or daughter will be creating a web page for their **Information Technology Student Support Team** project. Students will practice building web pages Weebly (http://www.weebly.com). This student-friendly website does not require an email, and the websites are teacher-monitored and controlled. We plan to develop the websites privately, then, with your signed approval (see below), to make them available for viewing **via a password.** They will be available for a throughout the school year to support our iPad implementation. Accounts may be removed from the web at the end of the school year, but will be archived into a file that the students can save to their computers at home.

The website to login is http://students.weebly.com and the login will be given to them during our next Tuesday session.

Please contact me with any questions about this exciting new opportunity!
