iPad Lunch Schedule Shelving Procedures & Assignments

iPad Shelving & Slot Assignment

Students who are on the Odyssey, Olympians and All Star teams have been assigned shelving by slot sections outside of the lunch room. iPad slot shelving assignments are color coded and are in alphabetical order by teacher. *Individual student numbers have not been assigned nor have individual markings been placed on individual slots.* To keep iPads from getting out of order it is important that students' place their iPad in the slot section assigned to them by teacher. Teachers who have a slot section assignment may want to in the future assign slot numbers to individual students once a decision is made to establish this procedure.
